## Light Frame Design Using the 2006 IBC

Tuesday, March 20, 2007

Speaker: Ricardo Arevalo

Mr. Arevalo is the Engineering Manager for the Southwest Division of Simpson Strong-Tie. He is principally involved with shear wall research, testing and development. He has degrees from the University of California and Cal Poly San Luis Obispo and is a registered Structural and Civil Engineer in California. Prior to joining Simpson Strong-Tie, he was a private consultant where he performed structural design on various types of structures. During the spring, he also teaches a timber design course at Cal Poly Pomona.

### 2006 IBC

We will all be using the International Building Code soon. Now is the time to start learning this code! Our presenter will discuss the impact of the 2006 IBC on the design of wood and light gauge structures. Design examples will be provided. Both gravity and lateral system issues will be discussed.

**Time:** Registration: 5:30-6:15 PM  
Dinner: 6:15-7:15 PM  
Program: 7:15-8:15 PM

**Menu:** Grilled-Marinated Swordfish topped with sun-dried tomato pesto, classic caesar salad, Tiramisu for dessert, tea and coffee service. (vegetarian plate available upon request)

**Cost:** Members: \$30.00, Non-Members: \$40.00, Students: \$12.50

**Location:** The Doubletree Hotel Mission Valley, 7450 Hazard Center Drive, San Diego, California, 92108, (619) 297-5463

**Reservation:** RSVP by 11 AM Friday, March 16, 2007 by emailing Cathy at secretary@seaosd.org, or calling 619-223-9955. Your advanced reservations, made and honored, are essential to fulfilling our catering commitment. If you make a dinner reservation and fail to attend you will be invoiced.

**Cancellation:** If you are unable to attend, please call Cathy at 619-223-9955 and CANCEL your reservations(s). Cancellation must be made at least 24 hours in advance.

### Continuing Education Committee

by Peggy Dermody, S.E.

Is there a topic you wish you knew more about? Wood detailing? Concrete Repair? Lateral Design of Light Gage Framing? Steel Moment Frames? Design Changes related to the IBC? It is our goal is to host a "Practical Design and Detailing Seminar" twice a year, but topics are the biggest obstacle. Our membership works in a wide variety of specialties and on very different projects, so we need your assistance in selecting the educational topics that benefit us all. In the past couple of years, we have hosted seminars on topics such as Concrete Masonry, Wood, Light Gage Steel, and most recently, Structural Observation and Special Inspection. This Structural Observation and Special Inspection Seminar, held in January, was well attended with over 50 people. Ed

## Transitioning From the 97 UBC to the IBC

**March 20, 2007- 8 am - 5 pm**  
"Making the transition from the 1997 UBC to the 2006 IBC." This seminar, presented by the Structures and Codes Institutes, makes the transition smoother. The seminar is sponsored by S.K. Ghosh Associates, ICC and NCSEA. For more information call (847) 991-2700.

## REMINDER: SEAOSD ENGINEERING AWARDS POSTERS MUST BE SUBMITTED BY APRIL 25<sup>TH</sup>

Please don't let this one slip by! We would like to see as many local firms represented as possible. It is a great chance to gain recognition for your firm's projects and a great marketing opportunity for your firm. Awards recipients will be published in the San Diego AIA Newsletter and press releases will be submitted to local papers. Please take the time to participate. Rules and entry form can be downloaded by visiting [www.seaosd.org](http://www.seaosd.org). Contact Lianne Bell at (619) 521-8500 or [awards@seaosd.org](mailto:awards@seaosd.org) with any questions.

The call for entries for the statewide SEAOC Awards will be published in April's newsletter. Deadline for the state Awards is July 2, 2007.

## New AISC Specification/ Manual Seminar "Design Steel Your Way with the 2005 AISC Specification" San Diego, May 10, 2007

This is the AISC Specification Manual and Seminar you've been waiting for! Whether you design in ASD or LRFD, this seminar will accelerate your ability to design steel buildings according to the 2005 Specification for Structural Steel Buildings. For more information, view this link online:

[http://www.aisc.org/Content/NavigationMenu/Learning\\_Opportunities / Seminars/ New\\_AISC\\_Specification\\_Manual\\_Seminar/ New\\_AISC\\_Specification\\_Manual\\_Seminar.htm](http://www.aisc.org/Content/NavigationMenu/Learning_Opportunities/Seminars/New_AISC_Specification_Manual_Seminar/New_AISC_Specification_Manual_Seminar.htm).  
Or call (800) 809-2364, or email [steel@wyndhamjade.com](mailto:steel@wyndhamjade.com).

## STRUCTURAL ENGINEERS ASSOCIATION OF CALIFORNIA Ad Hoc Wind Committee

Our State organization is looking for a volunteer from the San Diego section to join the Ad Hoc Wind Committee. This committee will report to the SEAOC Board of Directors. Specific program of work items for the coming year include:

- Establish delegates from each section to Ad Hoc Wind Committee.
- Coordinate and meet with representatives from Washington and Oregon to establish a scope of an alternate simplified wind provision for and IBC code change proposal.
- Meet and establish content of the proposal. Distribute to interested parties.
- Submit code change proposal to ICC.
- Attend NCSEA general Engineering committee meeting in July 2007 to Lobby for their support.
- Attend IBC Structural committee hearings to obtain approval of the code change.

If you are interested, please contact Eric Lehmkuhl at (619) 521- 8500.

## STRUCTURAL ENGINEERS ASSOCIATION OF SAN DIEGO 6TH ANNUAL GOLF TOURNAMENT

**Where:** The Vineyard at Escondido  
925 San Pasqual  
Escondido, CA  
**When:** Friday, May 11, 2007  
11:30 pm -Check In  
1:00 pm - Shotgun Start

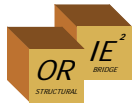

Entry Fee \$120 includes:  
18 Holes of Golf, Cart, Box Lunch,  
Tournament Shirt, Golfer's Prizes  
and Awards Dinner  
Sponsorship Opportunities Available:  
Contact Mike West for details  
(858) 503-7854 or  
[Mike@arconengineers.com](mailto:Mike@arconengineers.com)

Mark your calendars for your day of fun in the sun! Watch for the flyer in the March issue of the SEAOSD newsletter, or go to [www.seaosd.org](http://www.seaosd.org) for more information. Please join us for an enjoyable afternoon of golf with friends, as well as a chance to forge new relationships with other engineers, architects and members of the local construction community. This has proven to be a very fun and successful event. We are also looking for help in finding sponsors and donors for raffle prizes. If you are interested in participating, or want additional information, please contact us at:

# Job Forum

Orie<sup>2</sup> Engineering  
*Structural and Bridge Engineers*

Established in 2002, Orie2 Engineering is a small, but established Structural and Bridge Engineering firm who is respected by our clients for high quality work and responsiveness.

We work on a wide variety of projects including Fire Stations, wastewater treatment & pump stations, office, commercial & residential buildings, hospitals, bridges, and solar panel support projects.

We are seeking a **Structural Drafter** with 2-3 years of experience in Structural drafting using AutoCAD. Candidates with experience in timber, steel, concrete and masonry structural drafting are sought.

We are also seeking an **entry level Engineer** with a degree in Structural Engineering, preferably with a Masters degree, who would like the opportunity to expand their experience through a wide variety of projects. Candidates with experience in timber, steel, concrete and masonry design are sought. AutoCAD experience is a plus.

We offer competitive compensation and comprehensive benefits including retirement savings, health insurance, and a relaxed and friendly work environment as well as an opportunity for learning, growth and career advancement.

Mail, fax or e-mail your resume to:  
Orie2 Engineering  
16980 Via Tazon, Suite 290  
San Diego, CA 92127  
Fax: 858-451-6142  
email: jamesorie2@sbcglobal.net.

## STRUCTURAL DESIGN ENGINEER

Curry Price Court is seeking a DESIGN ENGINEER. Candidates with experience in timber, concrete, steel & masonry building design and/or recent graduates are sought. AutoCAD experience a plus. Competitive compensation and comprehensive benefits including health insurance, profit sharing, 401(k) and pleasant office environment.

### AUTOCAD DRAFTER

The firm specializes in timber, concrete, steel & masonry building design. Qualified candidates should have AutoCAD experience in the production of building construction drawings utilizing these materials. Competitive compensation and comprehensive benefits including health insurance, profit sharing, 401(k) and pleasant office environment. Mail, fax or e-mail resume in confidence with cover letter stating current & desired salary to: Curry Price Court, 444 Camino del Rio South, Suite 201, San Diego, CA 92108. www.cpceng.com Fax: (619) 291-0613 email: cpc@cpceng.com

**T.B. Penick & Sons, Inc. has upped the ante in their search for a Structural Engineer in the Design Build Division. They are offering a Salary up to \$150,000 + Bonus Potential + Vehicle or Vehicle allowance and a Gas Card!**

### Structural Engineer

T.B. Penick & Sons, Inc. has an opportunity for a Structural Engineer with Design-Build experience. Estimating, Construction Management and Post Tension background, a plus. Experience in Multi-story cast-in-place construction methods critical. Apply on line at www.tbpenick.com or fax resume to (858) 622-1942.

## ENGINEER

**Libby Engineers, Inc.**, a consulting structural engineering firm, is seeking engineers with 5 or more years experience in structural design and analysis. Preferred candidates should possess good communication skills and a working knowledge of the UBC or IBC. PE/SE license and familiarity with various materials and structural systems are desirable.

Good benefits and a friendly, small office atmosphere. The position has growth potential for the right candidate. The office is located in east Mission Valley in close proximity to the trolley and freeway access.

All inquiries will be confidential. Interested individuals should contact Donald R. Libby. Phone: (619) 280-9307 Fax: (619) 284-3533 Email: dlibby@libby-lei.com

## BURKETT & WONG SENIOR STRUCTURAL ENGINEER

Well established San Diego Engineering Firm seeks licensed SE with 5 or more years building design experience. Good communications skills required. Excellent salary and benefits. Unlimited opportunity for professional growth. Send resume to: Burkett & Wong Engineers, 3434 Fourth Avenue, San Diego, CA 92103 FAX: 619/299-9934 Email: ljolson@burkett-wong.com

Burkett & Wong Engineers is a consulting firm with offices in San Diego and Las Vegas. Founded in 1971, the firm provides structural and civil engineering, land planning and survey services. With more than 10,000 projects completed in private industry, and local, state and federal government agencies, Burkett & Wong Engineers is a highly experienced, well established company committed to design excellence and superior quality and service.

(continued on Page 4)

(continued from Page 3)

Degenkolb Engineers, an employee-owned company, has current openings in our San Diego office for PROJECT MANAGERS.

As recognized leaders in seismic engineering, we offer a diverse, challenging mix of projects on both new and existing structures. We also offer an excellent salary and benefits package. Minimum requirements are a MS with structural emphasis, SE license, and 6+ years experience in the structural/seismic field. Business development skills and 3+ years experience managing technical staff preferred. Also see [www.degenkolb.com](http://www.degenkolb.com). EOE

Send resume and cover letter to:  
Human Resources  
Degenkolb Engineers  
225 Broadway, Suite #1325  
San Diego, CA 92101-5013  
Fax: 619-515-0298  
Email: [recruitsd@degenkolb.com](mailto:recruitsd@degenkolb.com)

## MOFFATT & NICHOL

### 5 Questions to ask yourself:

- 1.) Are you ready to take the lead on major civil structures?
- 2.) Do you have a P.E. (S.E. preferred) with concrete design/construction experience?
- 3.) Do you have at least 8 years of experience?
- 4.) Have you completed Waterfront, Marine, Bridge, or Transportation projects?
- 5.) Would you like to attend exciting office lunches?

If you answered yes to the questions above, then the San Diego office of Moffatt & Nichol is the right place to enhance your career. At Moffatt & Nichol, you will have the opportunity to design multi-million dollar pier, wharf, and bridge projects. If you have a solid background in analysis and concrete design, contact Moffatt & Nichol and join a team with excellent benefits and a great working environment.

Contact: David Lowy at  
[dlowy@moffattnichol.com](mailto:dlowy@moffattnichol.com)  
◆◆◆

As leaders in structural engineering since 1977, Wiseman+Rohy Structural Engineers is respected by our clients for our experience, high quality work and attention to detail.

We are seeking an ENTRY LEVEL ENGINEER with one to three years of experience who wants to expand their experience through a wide variety of projects and involvement in these buildings from concept to construction. Good communication skills are expected for this position.

We are also looking for a PROJECT STRUCTURAL ENGINEER with a minimum of five years of experience. Good communication skills, and a solid engineering and detailing base are required for this position. Licensed engineers are preferred.

For more information about Wiseman+Rohy, please visit our web page at [www.wrengineers.com](http://www.wrengineers.com). Please send resumes to: Jim Wiseman at [jwiseman@wrengineers.com](mailto:jwiseman@wrengineers.com) or Fax to: (858) 536-5163  
◆◆◆

## GNR Engineering Project Engineer

A team player willing to grow and be challenged in variety of projects including religious structures, upscale residential housing, car dealerships, office buildings, shopping centers and more. P.E. Licensing preferred. With 3-7 years of experience in wood, steel, concrete, and masonry buildings. We provide excellent benefit package. Great working environment, with supportive atmosphere.

Please send resume in confidence ASAP to George:  
[George@gnrengineering.com](mailto:George@gnrengineering.com)  
[WWW.GNREngineering.com](http://WWW.GNREngineering.com)

◆◆◆  
**Structural Engineer**

**Simon Wong Engineering**, a Scripps Ranch area firm, seeks a Structural Engineer with a minimum of 5 years experience in the structural design of buildings encompassing steel, concrete, masonry and timber. Applicant must have P.E., and good communication and computer skills. Masters degree a plus. We offer a comfortable work environment, competitive salary and excellent benefits. Please mail or fax your resume in confidence to:

Simon Wong Engineering  
9968 Hibert Street, Suite 202  
San Diego, CA 92131  
Attn: HR-TL Fax (858) 566-6844

## SEAOSD Outreaches to Students at Science Olympiad

by Melissa Kroskey, P.E.

SEAOSD recently hosted a table at the Science Olympiad in an effort to promote the structural engineering profession to local middle and high school students. Hundreds of students interested in science gathered at Rancho Bernardo High School to compete in Science Olympiad events. At the SEAOSD table, students constructed gumdrop domes and were introduced to samples of building materials such as rebar, steel, glue laminated beams, trusses, metal studs, bolts, et cetera. Students also created computer model bridges to see their bridge's performance as trains drove over them. Students enjoyed building gumdrop domes, hearing interesting facts about San Diego's landmark

structures, and driving trains across computer modeled bridges.

In addition to hosting a table, SEAOSD members volunteered their time as judges and team coaches for the Olympiad Events. Students competed in such events as the Tower & Bridge Building competition and Storm the Castle where they built and tested catapults. On behalf of SEAOSD, thank you to all the SEAOSD members who volunteered at the Science Olympiad: Adrienne Johnston, Chris Kamp, Melissa Kroskey, Shane Noel, Liliana Pinto, Ryan Turner, and Lena Yoe. SEAOSD will continue to outreach annually at the Science Olympiad and we hope more of you will join us in future years.

## SEAOSD Public Relations Committee Update, by Melissa Kroskey, P.E.

The mission of the SEAOSD Public Relations Committee is to enhance the structural engineering profession here in San Diego through media relations and public outreach. Our designated Spokespersons interact with local media including reporters from the Daily Transcript, Business Journal, Union Tribune, San Diego Magazine, and Metropolitan Magazine. Over the past year, we successfully published our SEAOSD Excellence in Structural Engineering Awards recipients in the SD AIA Newsletter, the Daily Transcript, and the Metropolitan. We also issued a press release on our celebration honoring SEAOSD Fellows during National Engineers Week.

In the next year, SEAOSD plans to expand its outreach program to reach hundreds of students, teachers, and parents in the San Diego area. The Public Relations Committee recently finished a poster highlighting the structure of San Diego landmarks, a poster

that we can use to teach San Diegans the structural engineering behind the Coronado Bridge, UCSD Library, Latter Day Saints Temple, and Petco Park. We are looking for engineers to help us build models of these structures to use in teaching students about structural engineering. We hope to have members from all local structural engineering firms give back to the profession by joining us at future outreach events.

We need members interested in media relations and/ or public outreach. As a member of the public relations committee, you'll keep up to date on emerging engineering trends, political issues on structural engineering, and other stories written by reporters related to our profession. We need members to join the PR Committee and organize outreach efforts to local schools. We plan on visiting local schools to do presentations and talk with guidance counselors about a re-

warding career in structural engineering. Even if you're not interested in joining the PR Committee, we need volunteers to help us at outreach events and to visit local schools. We need your help to reach out to San Diego and show pride in our profession.

The SEAOSD Public Relations committee is a great way to meet other association members, keep up to date on the latest news in structural engineering, and expose children to an awesome profession. The Public Relations Committee will meet next on Monday, March 26<sup>th</sup>, from 4-5PM at the offices of KPFF in Mission Valley. Join us at the next meeting and help us spread the word on the rewarding and challenging profession of structural engineering. Contact Melissa Kroskey, PE, at SDSE for information about how you can become involved in the PR committee or volunteer to help at outreach events. Phone (619) 297-2223,

e-mail: melissak@sdse.com.

## **President's Message**

**By Norman Scheel  
SEAOC President**

The new era of the International Building Code (IBC) is upon us. The California Building Standards commission has adopted the IBC as the model code for California. Printing is scheduled to be complete on July 1, 2007 and the projected date when the new code will be in effect is January 1, 2008.

In anticipation of this, SEAOC has funded the preparation of 3 volumes of Structural/Seismic Design Manuals (SSDM). Volume I and Volume II are currently available from ICC and Volume III will soon be in print. The SEAOC Seminars Committee is in the process of arranging for SSDM seminars to be presented through the four regional associations. These are expected to take place in the spring and fall of 2007. These seminars will be used to present examples and problems from the new SSDM's.

On February 10, 2007, the newly reconstituted SEAOC Code Committee met in Los Angeles. One of this committee's charges is to review code change proposals and recommend approval, disapproval or modification. These recommendations will then be submitted to the appropriate NCSEA committees as well as the IBC Structural Committee. Volunteers are needed at the local level to serve on the regional association code committees to have a voice in the code development process for all our members.

The state Code Committee also has established an ad hoc Wind Subcommittee with the charge of proposing a code change to simplify the wind provisions in the 2006 IBC. The subcommittee met with the Washington and Oregon Structural Engineers Association's Wind Committees in Portland in late February to try to form a consensus for this wind code proposal prior to moving on to NCSEA and IBC. The objective is to make the wind provisions we would be using very similar to those in the 1997 UBC.

The SEAOC Long Range Plan has called for the publication of a Journal of the Structural Engineers Association of California. At this time this journal is conceptual only and is envisioned to be under the direction of a 3 or 4 person Editorial Board. The content of the Journal is not intended to be technical only but to also contain a variety of other types of articles as determined by the Editorial Board possibly such as opinion pieces, key moments in the history of the profession, etc. The Journal content is not intended to compete or conflict with the Blue Book which remains the province of the SEAOC Seismology Committee.

## **SEAOC Frequently Asked Questions**

- 1.) How can I get the SEAOC discount on SEAOC-produced publications such as the new Structural/Seismic Design Manual series through the ICC bookstore?  
Call ICC toll free at (888) 422-7233, extension 3221. The person at that extension knows the deal with SEAOC and will fulfill orders with the member discount. Orders will be taken from voice mail if she is not personally available.
- 2.) How do I access the SEAOC web site secure section?  
Enter ID "SEAOC" and password "SEA32OC" to access the information. The code is case sensitive – use capital letters.
- 3.) How do I get information on state legislation that has been introduced and its status?  
Updated bill summaries are posted on the SEAOC web site at [seaoc.org](http://seaoc.org) on the home page. You can check this site from time-to-time to get the latest update on legislation of interest to the profession. If you wish to access a bill itself, its status, as well as all California statutes and general information on the Legislature, go to web site [leginfo.ca.gov](http://leginfo.ca.gov) and click on the appropriate button on the home page.
- 4.) How do I go about obtaining the entry package for the 2007 SEAOC Excellence in Engineering Awards Program?  
The full package is on the SEAOC web site home page at [seaoc.org](http://seaoc.org) and can be printed out.

*(continued on Page 8)*

## SEAOSD Board of Directors Meeting

The SEAOSD Board of Directors normally meets the first Thursday of every month. Everyone is welcome to attend. The next Board of Director's meeting will be held on Thursday, April 5th at 4:00 PM at SDSE, 3838 Camino del Rio North, San Diego, CA 92108.

If you have an issue to bring before the Board please let a member of the Board know so that it can be placed on the agenda. The agenda can be viewed on the SEAOSD webpage at <http://seaosd.org>.

Send correspondence to: **SEAOSD, P.O. Box 26876, #203, San Diego, CA 92196-0876, (619) 223-9955.**

# Advertisement Policy

*(Continuing Education continued from Page 1)*

Trasarus, P.E., Southern California Soil and Testing, spoke on Structural Steel, Greg Smith, P.E., Testing Engineers, discussed Concrete Masonry, and our own Dan Werdowatz, S.E. educated us on Wood Structures. We are working on putting together a series of seminars focusing on the IBC and the design related changes, maybe in conjunction with other local associations. Please contact us at:

continuingeducation@seaosd.org

Your ideas, comments, topics, or speakers suggestions are appreciated and needed. If you would like to participate on the committee, we could use assistance the day of the seminars to help with registrations (set up, clean-up, etc.), as well as people to assist with the planning of the seminars (arranging speakers, topics, etc).

\*\*\*\*\*

*(FAQ continued from Page 6)*

5.) When and where is the Structural Engineers World Congress 2007?  
November 4 – 9, 2007, Bangalore, India at Hotel Grand Ashok. Go to web site [sewc2007.org](http://sewc2007.org) for full information.

6.) Where can I get information on the 2006 IBC, UMC, and UPC training sessions CALBO is offering?

The schedule and registration information for the CALBO training sessions on the model code and state amendments is posted on the SEAOC web site at [seaoc.org](http://seaoc.org). This information can also be accessed through the web site at [calbo.org/documents/0650\\_0001.pdf](http://calbo.org/documents/0650_0001.pdf). SEAOC members get the CALBO member rate.

## ADVERTISEMENT POLICY

### JOB FORUM ADS:

- SEA News charges \$50 to run "Help Wanted" and "Employment Wanted" advertisements for four months. Please keep these under 100 words.

### ADVERTISEMENTS:

- Flyers (375 copies provided by advertiser) will be inserted into the Newsletter for \$200 per issue, per 8 1/2 by 11 sheet.
- 1/4 page advertisements for \$75 per issue (4 1/4" x 3 1/4").
- 1/2 page advertisements for \$125 per issue (4 1/4" x 6 3/4").
- Full page advertisements for \$225 per issue (6 3/4" x 8 3/4").
- Professional Directory advertisements for \$330 per year or \$30 per issue (see page 9).
- Camera-ready copy of the advertisement to be provided by advertiser.
- All advertisements are to be prepaid.
- Make checks payable to the Structural Engineers Association of San Diego.
- Mail checks and ads directly to the editor prior to the deadline (contact information below).

For further information, contact SEAOSD at (619) 223-9955 or the current editor (contact information below).

The SEA-News Professional Directory listings are seen by over 350 association members each month. The listing cost is **\$330** per year for the July through June issues of SEA-News. Listings that are added before or after the July issue will have a prorated cost of **\$30** per issue from the month of initial listing to the following June issue. To be represented in the Professional Directory please send three copies of your business card and a check payable to SEAOSD to the address above.

(Job Forum continued from Page 4)

FrameMax is seeking individuals who are highly motivated and looking to make a difference in design. We are a fast growing, highly innovative company seeking to revolutionize the building industry.

The Engineer will be responsible for review of prefabricated structural components, ensure coordination with project specifications, create project drawings as needed, analyze and research structural properties, and work to develop new and original solutions for common construction issues. Position requirements include Bachelor's degree (B.S.) from four-year college or university (Architectural/Structural/Civil Engineering), Three to seven years structural design experience - PE license, preferred, but not required, General knowledge of lateral design using current codes, Knowledge of cold formed steel framing (light gauge steel) preferred, but not required, Read, analyze and interpret architectural and structural drawings, Effectively present information and respond to questions from management and other relevant persons, Strong communication skills, Common sense and understanding to carry out instructions furnished in written, oral or diagram form. Please send resumes via email to [rnagtalon@framemax.com](mailto:rnagtalon@framemax.com) or via fax to (858) 486-7220 attention Richard Nagtalon. Visit our website at [www.framemax.com](http://www.framemax.com).
